## FINANCIAL AND COMMERCIAL

SUNDAY, April 24, 1864.

Notwithstanding the severe blow which the panic last sock gave to the newly formed bogus companies, breatening their feeble existence, they are all again to e field, and are strenuously endeavoring to convince the recepts that their only aim and objects are to mobi-lize capital, in order the better to decelap the mineral regions of the Far West; to work coul, ir n and copper nes to various localities, and to secure the countles consands of gallons of petroleum which are represented flowing from hundreds of inexha st ble wells. me time they bold out promites of large profits, anging from two to five per cent a month, for all money that is invested in them; and by their pleaded exhibits on paper-which remind us of the mous water lot village and city maps which were spread before the public about thirty years ago to raise a spirit of specialion—they aliare many an onwary pers n into the belief that a fortune lies within his grasp. There are three or four descriptions of mines in pertain localities, that are worked by means of concentra-tion of capital, which have paid well thus far, and will no doubt, continue to riculy reward all who are interest-They are the gold mines of California, a umber of the coal mines of Pennsylvania, the copper mines of the Lake Superior country, and, perhaps, ver mines; but a large majority of the new organizations, including many of those that are based upon really honest intentions, will never repense the labor that it will be found necessary to upley to work them, and in the end they will be abannd these who have contributed to their forma tion and support will be minos their investments. A ear or two ago a furor was raised in Canada over the covery of gold on the Chandierre river and other streams in that vicinity. The fever ran high, the roads ding to the localities were lined with fortune hunters and gold diggers; chemists and assayists were despatched and some fifteen or twenty companies were immediately ready takers. The fact that gold existed in the region there it was repres pted to have been discovered was ne rly equal to the profit that the work was abandoned and most of the companies dissolved.

The following were the quotations of stocks at the close of the past five weeks:—

The Central National Back of this city, which has been I ganized under the law of Congress, will open for busisess to merrow (Monday).

The tew National Bank bill will be taken up, it is ought in the United States Senate early in the present An exterminating war is now waging in portions of the West particularly in Chicago, against what is termed the is-up of "wild cat" banks, and the Chicago Board of Frade has adopted a resolution declaring "that on and

Board shall be for United States legal tender notes and the National Bank notes." A number of meetings have be to get rid of the mixed currency, and to confine the trading community to the more legitmate and safe cur reacy of the government. They do not complain of the issues of the banks in the Atlantic cities; but then tr unic and distrost seems to be confined to the notes of their own institutions. A glance at the last quarterly statement of the banks of Himois will show how well tounded are their suspicions. There are twenty-five cor porations which issue bills in Illinois under the laws of

Himois sixes. United States fives. North Carolina sixes.	8,000
Total.  -Upon this amount they have issued bills to of \$1,136 628, or within \$162,000 of the whole	the extent

trities, supposing them to be worth par. The bank of Wis unsin are in a still worse condition, they having a total outstanding circulation of \$2,651,292. During the last quarter their securities were reduced \$111,600, while

their circuitation decreased only \$6,063.

The St Paul bankers have followed the example of the Fhicago bankers, and will not hereafter receive or pay but the notes of the Pensylvania, New Jersey and Michigan banks, and none but the State banks of Maryland Dbio and Indians.

The financial operations at the Sub-Treasury in this bity during the past week may be found in the following
